

# EDA on Used Car Sales

# Agenda

**Problem Statement**

**Introduction to Use Cars Sales Dataset**

**Exploring the Dataset**

**Observations and Conclusions**

**Actionable Insights**

## Problem Statement

- The used cars sales company has earned its name because of sincerity in work and quality of services.
- But for recent past for past few months their sales is down.

# Introduction

- Dataset contains one of the used cars company sales.
- ~ 10k records available
- Sales history from 1950 to till 2016
- Visual Data Analysis

Id	Feature	Description
01	<u>car</u>	Car brand name
02	<u>model</u>	Available car different Variants
03	<u>year</u>	purchasing Year
04	<u>body</u>	Body type-Hatchback, Sedan, Crossover etc
05	<u>mileage</u>	car Mileage
06	<u>engV</u>	Engine version
07	<u>engType</u>	Car Fuel type - Petrol, Diesel, gas etc
08	<u>drive</u>	Wheel Drive Front, back
09	<u>registration</u>	Check if the vechile is registered
10	<u>price</u>	Price of Car in \$

## Action Points:

- Remove **113 duplicate records**.
- engV** has 434 (4.5%) missing values. Replace the missing values with median **2**. There are 28 records (~0.3%) with value 99.99 and the percentage is very less and leave them as it is.
- drive** has 511 (5.3%) missing values. Replace the missing values with mode **front**.
- price** has 267 (2.8%) zeros. Replace the zero values with median **9200**.
- mileage** has 348 (3.6%) zeros. Replace the zero values with median **128**.

8205	Land Rover	285000.0	crossover	129	5.00	Petrol	yes	2016	Range Rover	full
1478	Bentley	259000.0	sedan	129	6.00	Petrol	yes	2014	Flying Spur	full
564	Mercedes-Benz	250000.0	other	6	5.50	Petrol	yes	2016	S 63 AMG	full

## Top 10 best sold car brands and models listed below:

### •Bentley

- Mulsanne
- Bentayga
- Flying Spur

### •Mercedes-Benz

- S 600
- G 500
- S-Guard

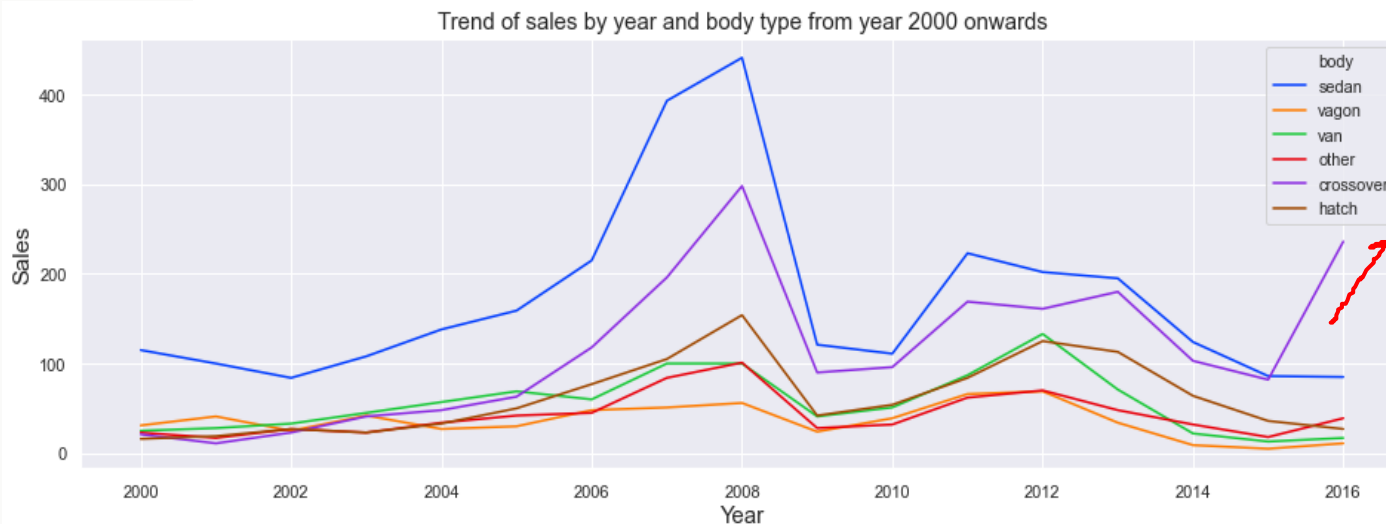

### •Land Rover

- Range Rover

• Though **Mercedes-Benz** and **Land Rover** are proven strength in sales under Premium sector, nevertheless **Bentley** dominating recently in this segment.

# Data Exploration

## Sales based on body type

- **Sedan is highest sold body type** followed by crossover, hatch, van, other and vagon.
- 2010 onwards, body type **crossover sales increased from overall 21% to 41%** and **sedan car sales decreased from overall 38% to 30%**. Hatch and Other sales are consistent whereas Van and Vagon sales are dropped.
- So possible reason of declining sales are Van & Vagon type cars are loosing market.

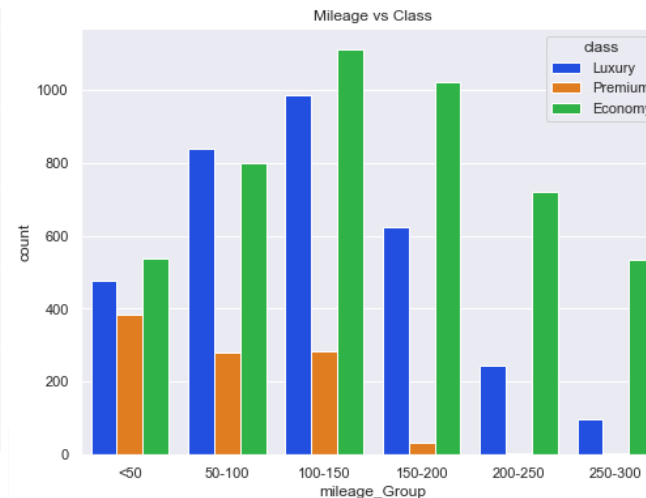

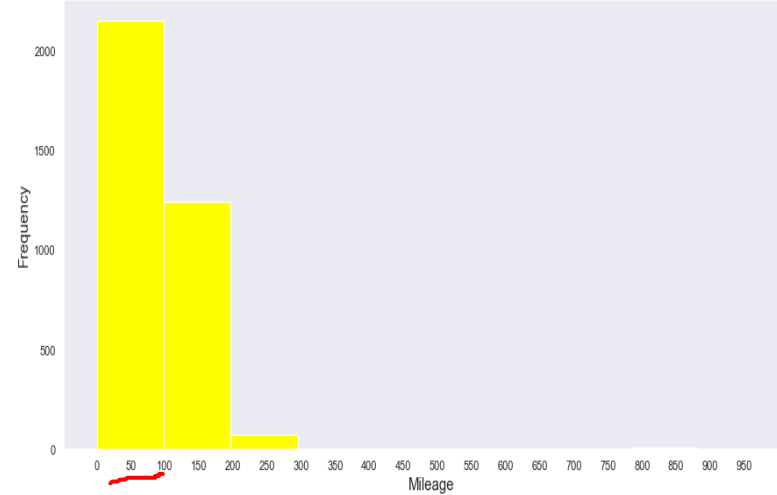

# Data Exploration

## Car sales based on mileage

Histogram showing the distribution of Mileage values for used car sales

Histogram showing the distribution of Mileage values for used car sales (from 2010 onwards)

- **Economy class have high mileage vehicles, followed by Luxury and Premium segment vehicles.**
- The average mileage of Economy cars 138, Luxury cars 102 and Premium cars 71.
- In overall, more vehicles sold with the mileage in the range of 100 - 200.
- From year 2010 onwards, cars sales with mileage 0 to 100 range leading significantly compared to 100 to 200 range.

# Data Exploration

## Sales based on Engine Type

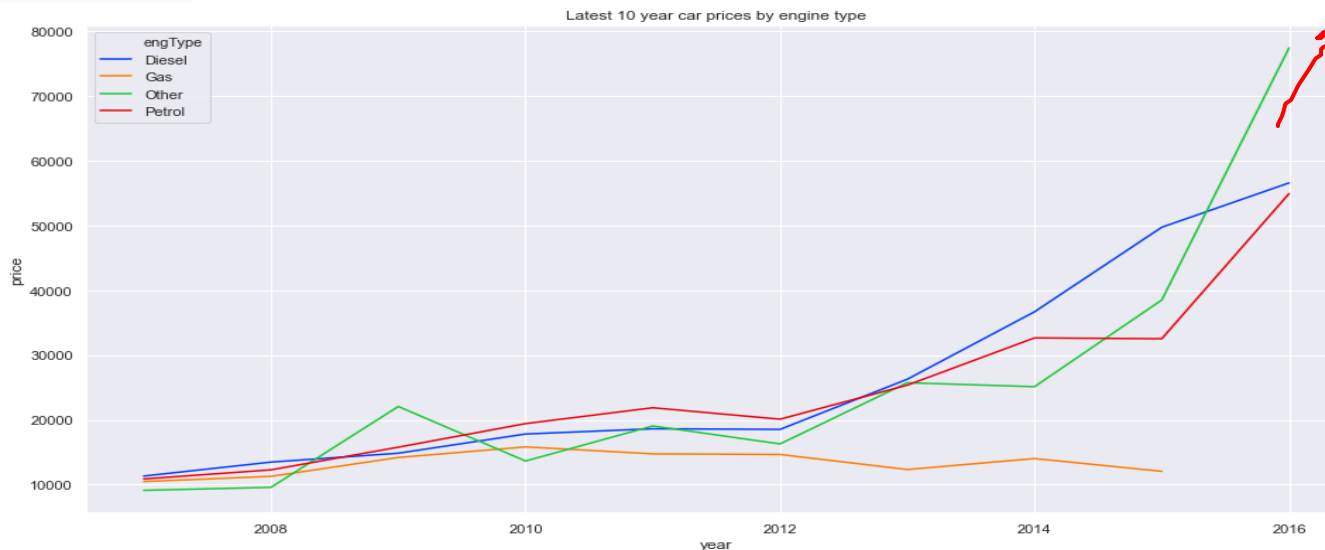

Pie chart showing the distribution of engType and car sales

Pie chart showing the distribution of engType and car sales from 2010 onwards

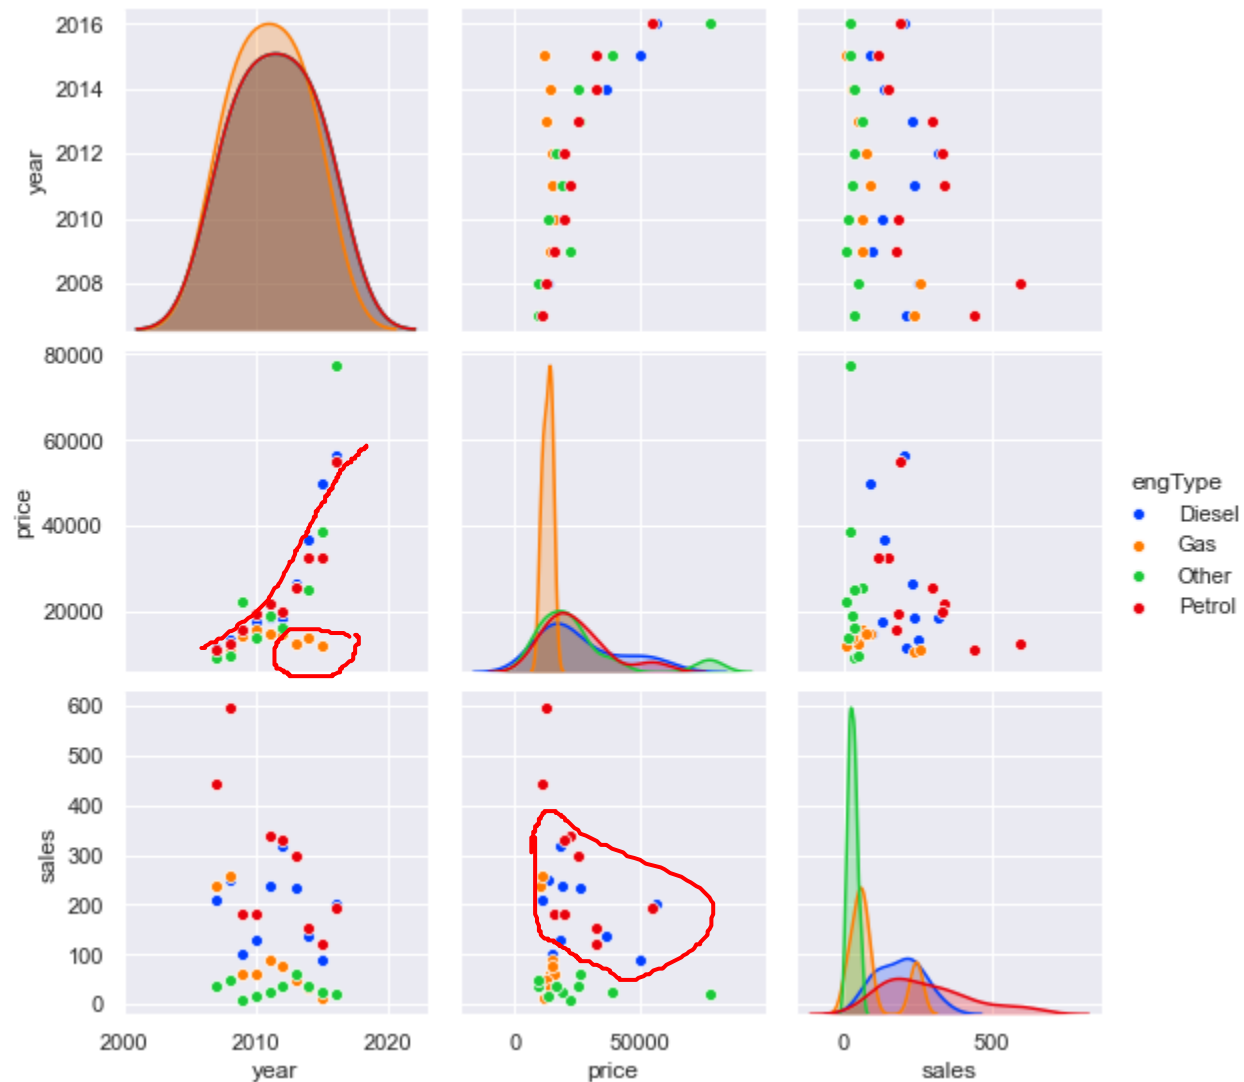

- In overall sales, the **highest sold engine types are Petrol** followed by Diesel, Gas and Other.
- From year 2010 onwards, Petrol car sales are consistent around 46% and increased slightly by 0.4%.
- The **Diesel car sales increased significantly to 7.4%** and the **Gas car sales decreased significantly by 9%** and **Other car sales increased by 1.3%**.
- The **Other cars (Hybrid, Electric, ..etc) prices are increasing continuously**.

# Data Exploration

## Correlation between Sales and Prices over the years

## Observations and Conclusions

1. Most **sales happening price range** is between **10000 to 40000 /-**
2. There are **very few cars sold** in **20000 to 36000** price bracket, which is best competitive price range
3. Though the cars with **Gas** engine type sold at most economical price, in the **recent days customers are not preferred**.
4. **None of the cars sold** from **Economy** segment in year **2016**.
5. From the recent past the car sales are stagnated on Gas type. In other hand
  - Petrol car sales are consistent
  - Diesel car sales are gaining momentum
  - Other car sales are gradually increasing
6. Car registrations are most considered in Luxury and Premium cars
7. Even with affordable price range, gas and other engine type cars are least preferred.
8. Most preferred
  1. engine types are Petrol and Diesel
  2. body types are cross-overs and sedan
  3. Other type cars are consistent and gradually increasing in sales
9. Irrespective of tenure, Sedans are always on demand follows with Cross-over and hatch.
10. Tremendous sales reported in 2016 for these super premium cars by Bentley, Land Rover, Toyota, Tesla, Lexus, Cardillac & BMW
11. Recently Crossovers are leading in sales followed by **sedans**
12. Most of the recent premium cars engine type is Petrol

## Actionable Insights

Cars should be available from all price ranges.

As 10000 to 40000 /- is the most sales happening price range and there are no cars available in 20000 to 36000 /- price bracket, procuring these price ranged cars should potentially improves the sales.

Procure cars based on customer trends.

- Petrol and Diesel cars are most popular.
- Full wheel drive is most preferred in Crossovers and Front wheel drive in Sedan cars.
- Luxury and Premium used cars booming sales due to hike in new car prices.

Tactical & Strategic Decision

- Less preferred old cars should be announced with great deals and clear the stock. In that way we can save money, renting space for storage
- Procure more demanded cars like Mercedes-Benz, BMW, Volkswagen, Toyota, Nissan, Ford, Audi, etc
- Procure more Economy price range cars which is of Petrol or Diesel engine types.

THANK YOU
